Feeding Directions

Pro-tubs Value-15% supplement is designed for grazing cattle, sheep and goats on low protein food sources. For cattle one tub should be placed per 20 head. For sheep and goats, one tub should be placed per 30-40 head. However it may be necessary for more tubs to increase accessibility. Cattle should consume approximately 0.5lbs to 1.0lbs per head per day. Sheep and goats should consume 1 to 1.5 oz per head per day. Provide access to clean, fresh water at all times. This product contains no added salt.

Net Weight 200lb (90.7 kg)
