Pro-Tubs Equine with ClariFly®

Prevents the emergence of house flies and stable flies from manure of treated horses, ponies, donkeys and mules. Solid feed supplement for all classes of horses, ponies, donkeys and mules.

ACTIVE INGREDIENT:

Diflubenzuron (CAS #35367-38-5)	0.01%
TOTAL	100.00%

Contains 45.4 milligrams of Diflubenzuron per pound.

FEED INGREDIENTS

Cane Molasses, Vegetable Oil, Soybean Meal, Flax Seed Meal, Dicalcium Phosphate, Monocalcium Phosphate, Calcium Carbonate, Potassium sulfate, salt, Potassium Chloride, Magnesium Oxide, Vitamin A Supplement, Vitamin D Supplement, Vitamin E supplement, Cobalt Sulfate, Copper Sulfate, Ferrous Sulfate, Ethylenediamine Dihydriodide, Manganese Sulfate, Sodium Selenite, Zinc Sulfate, Menadione Sodium Bisulfate Complex, Pyridioxine Hydrochloride, Vitamin B12 Supplement, Vitamin B6 Supplement, Biotin, Choline Chloride, Folic Acid, Niacin, Calcium Pantothenate, Riboflavin, Thiamine Mononitrate, Ascorbic Acid.

Contains no prohibited animal by-products in accordance with FDA regulation 21 CFR 589.2000. This supplement should be used only in accordance with the directions on the label.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID	
If swallowed	 Call a poison control center or doctor immediately for treatment advice.
	 Have person sip a glass of water if able to swallow.
	 Do not induce vomiting unless told to by a poison control center or doctor.
	 Do not give anything to an unconscious person.
lf on skin	Take off contaminated clothing.
	 Rinse skin immediately with plenty of water for 15-20 minutes.
	Call a poison control center or doctor for treatment advice.
If in eyes	 Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove
	contact lenses, if present, after the first 5 minutes.
	 Call a poison control center or doctor for treatment advice.
Emergency Assis	tance: Have the product container or label with you when calling a poison control center, doctor,
or going for treatme	ent. For additional information on this pesticide product (including health concerns, medical

or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call the National Poison Control Center at 1-800-222-1222, 24 hours per day, 7 days per week.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FEEDING AND MANAGEMENT INSTRUCTIONS

Provide this product as a free choice source of nutritional supplementation for your horses, ponies, donkeys and mules. When used as directed, this product will provide sufficient diflubenzuron to prevent the development of fly larvae in the manure of treated horses, ponies, donkeys and mules. Existing adult flies will not be affected. Start feeding this product early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. Allow free choice to horses, ponies, donkeys and mules. Horses, ponies, donkeys and mules should consume an average of 2.4 ounces of this product per 100 lbs. of animal body weight per day which is equivalent to 24 ounces per day for a 1000 pound horse.

To Open: Remove top plastic sheet.

- 1. Assure horses, ponies, donkeys and mules are not starved for nutrients prior to feeding this product.
- 2. This product contains added copper. Do not feed to sheep and other species that have a low tolerance to supplemental copper. Do not use in association with feeds containing supplemental selenium.
- 3. Offer horses, ponies, donkeys and mules 1-125lb block for every 15 head.
- 4. Remove all other self limiting nutritional supplements.
- 5. Locate this product where horses, ponies, donkeys and mules congregate.
- 6. Replenish this product on a regular basis as needed.
- 7. If intake of this product is below 2.4 ounces per 100 pounds animal body weight per day for horses, ponies, donkeys and mules, increase the number of feeding locations and/or change location(s) to areas more frequented by horses, ponies, donkeys and mules.
- 8. If intake of this product is above 2.4 ounces per 100 pounds animal body weight per day for horses, ponies, donkeys and mules, reduce the number of feeding locations and/or change location(s) to areas less frequented by horses, ponies, donkeys and mules.
- Introduction of this product after adult fly infestation is established may require treatment of horses, ponies, donkeys and mules with supplemental sprays to reduce the adult fly population coming from outside sources.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a cool, dry place.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities
